DETAILED ACTION

Allowable Subject Matter

1. Claims 1-5 are allowed.
2. The following is an examiner's statement of reasons for allowance:

The prior art does not disclose applicant's claimed "method for forming a semiconductor device" particularly characterized by the limitation of "forming a trench capacitor," in the context of other claimed process limitations; a resultant structure of applicant's method can be visually distinguished from prior art, as an example, by comparing an embodiment of applicant's invention depicted Fig. 2f with a prior art embodiment depicted in Fig. 1d.

Applicant's invention is a method that increases capacitance in a device such as a "merged planar DRAM on logic" (i.e. a MPDL). As pointed out by applicant, by increasing the capacitance, it is possible to "increase the sensing margin, secure an operation margin of a sensor and improve refresh characteristics" [p. 7].

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Conclusion

3. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Evan Pert whose telephone number is 571-272-1969. The examiner can normally be reached on M-F (7:30AM-3:30 PM).

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Michael Tokar can be reached on 571-272-1812. The fax phone number for the organization where this application or proceeding is assigned is 703-872-9306.
